

Currently there are 1.4 million nonprofit organizations registered with the IRS. Because most nonprofits have budgets of less than \$1 million, there is often a mistaken notion that this is not a profitable market. This is not the case. Nonprofits need forms just like any other business, and because they tend to be smaller organizations, they often use forms in print. In the nonprofit world, forms are used both in the main offices and in interactions with donors and volunteers.

Wise specializes in nonprofit forms, including those for highly specialized applications and needs. Contact one of our production plants to find out how we can help you stay ahead in this high-profit market.

There are currently over one million nonprofit organizations registered with the IRS. Labels are an essential tool to help nonprofits effectively manage their operations, from fundraising campaigns to inventory management to event promotions. Because most nonprofits have budgets of less than \$1 million, there is often a mistaken notion that this is not a profitable market. This is not the case. Nonprofits are always looking for creative ways to broadcast their message and further their missions. This creates lots of opportunity for creativity.

Wise specializes in nonprofit labels, including those for highly specialized applications and needs. Contact our Anderson, SC label plant to find out how we can help you stay ahead in this high-profit market.
