### DECISION MAKERS

- Owners
- General Managers
- Office Managers
- Service Managers

The pest control industry has seen exponential growth in recent years and is expected to continue on a strong growth path in the future. The U.S. pest control industry currently generates an estimated 7.2 billion in service revenue. The recent growth in the industry has been attributed to factors including:

- Population growth
- Changes in Climate
- Increased focus on health concerns
- Increase in home ownership

A variety of different forms and documents are used in the pest control industry. Pest control service providers rely on forms to process service orders, document services, and keep their businesses organized. With the recent growth in the industry, sales are increasing and new players are entering the market every day. As the industry continues growing pest control providers will be looking to print service providers to organize their print processes and help their businesses stand out.

At Wise, it's our focus to scan the horizon, identifying important trends and opportunities to give your company the edge. We not only offer the highest quality products and services, we also provide the best-customized solutions anywhere.

Let us help your company gain new business in the pest control industry. Contact us at one of our five manufacturing locations to find out how Wise can help you stay ahead!
