

Home services is a \$657 billion market with 2.5 million home services businesses that focus on the upkeep and maintenance of residential homes. This is a strong, expanding market, encompassing everything from landscaping to home renovation to pest control. Because many of these are small businesses offering hands-on services out in the field, this market still uses a lot of paper forms. Thus, there is considerable potential for distributors to sell products such as service agreements, estimates, and inspection forms.

Wise specializes in home services forms, including those for highly specialized applications and needs. Contact one of our production plants to find out how we can help you stay ahead in this high-profit market.

WHY FORMS?

- Highly repeatable orders.
- Repeat multiple times per year.
- High-margin products.
- Increase revenue and profits.

Home services is a \$657 billion market with 2.5 million home services businesses that focus on the upkeep and maintenance of residential homes. This is a strong, expanding market, requiring everything from landscaping to home renovation to pest control. Home services contractors need reliable label solutions to organize their administrative tasks; identify tools, service equipment, and other assets; and organize and track items in their storage areas. Due to environmental conditions and durability requirements, these businesses often require custom label solutions, making these high-profit applications.

Wise specializes in home services labels, including those for highly specialized applications and needs. Contact our label plant to find out how we can help you stay ahead in this high-profit market.

WHY LABELS?
